SERIAL NO.:

FILED: Herewith

TITLE: FOLDER

Preliminary Amendment: CLAIM AMENDMENTS

1. (Currently amended) A folder comprising:

a board, ~~which is available~~ with one or more folding marks in ~~its~~ a central position:

~~The, said~~ folding mark ~~can separate the~~ separating said board into two folding panel boards. ~~And,~~  
and

a folder body is being provided at ~~the~~ an inner face of ~~a panel~~ said board adjacent to the folding mark, ~~where a folder will take~~ taking shape to hold the files. ~~The features include:~~

~~—The~~ wherein said board is ~~made~~ comprised of multi-layered sheets, with ~~its~~ a middle layer comprising of one or more foamed plastic layers. ~~And,~~ two plastic surface layers ~~are~~ being attached to the surfaces of both sides of the middle layer. ~~Thereupon, it is possible to enhance the ruggedness of the folder 20, reduce the manufacturing cost and offer more chromatism and diversity.~~

2. (Currently amended) The folder defined in Claim 1, wherein the middle layer of ~~the~~ said board is ~~constructed~~ comprised of multi-layered foamed plastics.

3. (Currently amended) The folder defined in Claim 1, wherein the middle layer and two surface layers of the said board ~~can bring more~~ increase chromatism.

4. The ~~feature of this folder includes:~~ defined in Claim 1, further comprising:

~~Two~~ two grip holes ~~or open holes are being opened and~~ arranged at ~~the~~ a same side of two panel boards of the folder, ~~where~~ and wherein a carrying handle ~~or hanger~~ is provided for more convenient applications.
